

WHAT YOU NEED TO KNOW ABOUT FAIR ELECTIONS

Albany needs to pass a comprehensive campaign reform package, including public financing of elections - a voluntary system where candidates can run for office by collecting small contributions - for all legislative and state level offices.

1

LIMITS INFLUENCE OF BIG DONORS

Because small contributions are matched, candidates can run viable campaigns with donations from everyday New Yorkers.

2

PUTS THE PEOPLE'S AGENDA FIRST

Issues like jobs, education, the environment, and housing, that normally get pushed aside, will be Albany's priorities.

3

WILL SAVE NEW YORK MONEY

Fair Elections will only cost about \$2 per New Yorker per year. And, if Albany represents voters instead of CEO campaign contributors, New York could save billions.
